

# Compliance Office Subject Matter Expert Support

Data Systems Sciences & Engineering Group

Computational Sciences & Engineering Division

## REGULATORY COMPLIANCE CFATS

- **Problem Statement:**
  - Provide technical expertise to resolve user problems escalated by DHS Compliance Office
- **Technical Approach:**
  - Enlist team of IT and Chemical experts
  - Develop body of expertise necessary to resolve complicated issues to enable sponsor's user community to comply with federally mandated regulations
  - Develop depth of knowledge necessary to respond quickly to ever-changing user problems
  - Develop and document Standard Operating Procedures that are repeatable and defensible
- **Benefit:**
  - The depth of knowledge and body of expertise developed in support of this task ensures that the project sponsor and user community are both able to meet the requirements of their respective roles
- **Technology Readiness Level 9**
