Andrea Sjoreen is a member of the Modeling and Simulation Group in the Computational Sciences and Engineering Division at Oak Ridge National Laboratory. Mrs. Sjoreen has worked on a variety of computational problems including modeling transport of radionuclides in air and water both for emergency response and for regulatory compliance reporting, database design and implementation, and risk analysis. She has authored/coauthored many reports and papers in the open literature. Mrs. Sjoreen is a member of the ORNL Emergency Response Team with the position of Atmospheric Modeler. She has a B.S. in geology from the University of Illinois at Chicago and a M.S. in geophysics from Stony Brook University.
